

Market Outlook

LOCAL FEATURE

Spring Onions- Sweeter and more mellow than regular onions, with greens that are similar in flavor to scallions. Spring Onions look similar to scallions with a small onion bulb at the base that can be red or white, depending on the variety.

White, 10# case, #65513 | Red, 10# case, #50433

Spring (Green) Garlic- Spring garlic has a delicate, mild flavor that contrasts with traditional garlic's pungency. The young bulbs and greens are tender and crisp, with a subtle sweetness. They're perfect for brightening up dishes like salads, pastas, and herb-infused recipes. Its vibrant green leaves add a pop of color and freshness, making it ideal for springtime culinary creations.

10# case, #66045 | pound, #50434

SEASONAL FAVES

Mixed Chicories- 3# case, Comanche Creek Farms

Bloomsdale Spinach- 4# case, Riverdog Farm

Fava Greens- Pound, MR Organics

Rosa Radicchio- 12ct case, J Marchini Farms

Nantes Carrots- Sunrise Organics, 24 bunch case

VALENTINE'S DAY PREORDERS

Due to limited availability and high demand, special orders for holiday items are encouraged. A minimum of **48 hours** is recommended on all specialty items, specifically **fresh flowers, edible flowers, and microgreens**. Pre-orders will be filled first, followed by a first come, first served basis.

PRODUCE ALERT

Current news coverage has reported that recent events have affected migrant farm workers and their security to attend work. While we have not seen a drastic change in supply or costs due to the tight labor, we have seen a delay in the arrival of products. Buyers suspect that the effects of shortages will be seen in the near future. This would effect all California grown produce, heavily affecting the southern and central regions. Attempting to predict produce trends is challenging, but we will do our best to keep you informed.
